To Parents/Guardians,

Our class ICT programme includes the use of Web 2 tools which means some information is placed on our School Website, Blogs or Wikis and therefore becomes part of the public domain. Generally this includes pupil work, photos with first names only, and names in newsletters.

You are welcome to contact the school to discuss this Privacy Agreement if you wish.

In the interest of safety and security Maungatapere School requires parent permission for the publishing of student's names or photographs on our website, and in our newsletters. This includes school or class Blogs and Wikis.

We believe it is important to celebrate children's achievement, but are aware of the potential risks when such personal information or material is published on a global information system such as the Internet.

We will share, if given permission, no more than a student's first name with photograph or full name (no photo) via the newsletter, or the wider online community via the school website.

If you are happy for your child's name, photograph, or work to appear in school ICT pages on the Web please take no action. If you do not want your child involved please tick and return this form to school.

I do not give permission for my child's first name, photograph or work to appear in the school newsletter or on the school website.
